

Business name	Village	FiPL grant awarded	Total project cost	Project start date	Project end date	Project Summary
National Trust	Branscombe	£30,536.16	£42,058.78	01/11/2021	30/04/2024	Create, enhance, and restore 7.3 hectares of important habitats and set firm building blocks for a mixed, low intensity agricultural system, in which wildlife flourishes alongside farming.
Rose Coombe Farm	Combyne	£10,681.29	£10,681.29	01/12/2021	31/03/2024	Improve and maintain unimproved species rich grassland, Removal of invasive bramble decreasing the area of quality habitat and to introduce a conservation grazing regime to manage the meadow in the long term.
P, IW and AP Westlake	Salcombe Regis	£15,399.56	£30,063.03	01/04/2022	31/03/2024	To make improvements to soil, habitat and biodiversity on the farm. To develop and maintain a quality relationship with the local community and holiday makers allowing them to access the farm in different ways and to engage with the farm to better understand the link between landscape, nature and food production.
PJD Farming Ltd, The Vending Shed	Colyton	£16,080.00	£16,080.00	01/05/2023	31/03/2024	To fund a Health & Safety approved trailer to seat the public for farm tours over 2 farms locally. The trailer can also be used within the local community by other farmers.
Dor's Field	Colyton	£4,761.10	£4,761.10	01/11/2022	31/03/2024	The field will be managed to enhance its wildflower interest aiming for an MG5c NVC community meadow. The 0.4ha field will be cut in summer for hay followed by grazing by cattle and/or ponies. In order to graze effectively the 320m boundary of the grazing area requires stock fencing. The floristic diversity of the field will be further diversified by adding green hay and selected wildflower seed.

Tedbridge	Farway	£21,239.51	£22,598.65	01/10/2022	31/03/2024	The East Devon Way a regional long-distance footpath passes through the meadow the project will enhance the experience of walkers using this route. The meadow will be managed for its wildflower interest and grazed by cattle after a late hay cut. Hedges will be restored and cut less frequently. A purpose-built bat roost will be constructed on the site of an old dilapidated wooden stable.
Idehill Farm	Farway	£16,007.30	£16,007.30	01/11/2022	31/03/2024	Undertaking 261 meters of hedge laying with casting up and fencing to protect the new hedge. Coppicing 41 trees along various sections of river to improve light penetration and vary habitat in a very overgrown and unmanaged riverbank. Planting 21 fruit trees to extend the existing orchard planting in a reinstated historic orchard. Managing a riparian strip. Managing species rich grass and increase wildflower species.
G.N. Baily	Farway	£10,029.11	£13,338.28	05/11/2022	31/03/2025	There are no public toilet facilities between Sidbury and Colyton on the East Devon Way this provision will provide walkers in the Coly valley with an option that excludes the use of bushes. The toilet will also have the potential to unleash the potential for re-use of redundant farm buildings. A shippon is being restored to keep it weatherproof and an asset for wildlife and maintain the character of the valley.
YJ & G.M.A Chugs Lock	Farway	£10,029.11	£8,975.76	07/11/2022	31/03/2024	To restore 3 ponds on the farm, two are of historic origins, one being a millpond, the other an aesthetic feature of the historic parkland. The third is a more recent pond. The project will also provide permissive bridleway access along the tree lined avenue that was once the approach to Netherton Hall. A permissive path will be provided linking this route to Bucknole Farm permissive access in application ED31

Great Trill Farm	Musbury	£5,749.10	£5,749.10	01/11/2022	31/03/2024	Erecting small bird nest boxes to benefit birds as there are limited supply of veteran trees providing these nesting opportunities. Planting and protecting trees within fields to provide habitat for native fauna and to enhance the landscape.
Brimley Farm	Farway	£7,076.39	£7,076.39	01/11/2022	01/03/2024	Planting 15 heritage variety apple trees to reinstate the numbers in an historic orchard. Restorative pruning to existing old fruit trees. Bringing the parcels into traditional orchard meadow management.
Road Pitt Farming Partners	Colyton	£14,715.90	£16,721.40	01/01/2023	31/03/2024	Undertaking investigation into soils and carrying out trials on physical, chemical and biological improvements of fields. Hoping to show the benefits to the soil in terms of soil organic matter, water infiltration and reduced reliance on inputs for similar production levels.
J. Chichester	Southleigh	£6,467.02	£6,467.02	01/04/2023	31/03/2024	Natural Flood Management by the construction of leaky dams. Hedgerow restoration works.
Bicton College	East Budleigh	£4,309.99	£6,910.99	01/04/2023	31/03/2024	This collaborative project between Bicton Home Farm, Clinton Devon Estate and Devon Wildlife Trust will facilitate the development of a dynamic beaver wetland over 9.73ha in the Lower Otter Valley.
Clinton Devon Estates	Colaton Raleigh	£6,468.83	£8,142.83	01/04/2023	31/03/2024	This collaborative project between Bicton Home Farm, Clinton Devon Estate and Devon Wildlife Trust will facilitate the development of a dynamic beaver wetland over 9.73ha in the Lower Otter Valley.
Loud Partners	Farway	£7,138.76	£7,138.76	01/10/2023	31/03/2025	To continue to provide 2.13 km of permissive paths on our farm and lay 246 metres of hedge, to be protected by new fencing.

Great Trill Farm	Musbury	£39,518.06	£39,518.06	01/11/2023	31/03/2025	Restoring an historic Linhay. Revitalising and protecting an old copse and pond. Creating and protecting a Devon Whitebeam seed orchard. Facilitating diversification while protecting historic character with a hidden car park. Restoring the landscape and benefiting biodiversity through planting and protecting in-field trees.
MR D & MRS C A THOMPSON	Bowd	£13,643.82	£13,643.82	01/12/2023	31/03/2024	Planting 468m of mixed, native, broadleaf hedge with 6 Devon heritage variety fruit trees, fenced for protection. Install 2 barn owl boxes.
Rockenhayne	Seatn	£9,504.97	£14,981.90	15/11/2023	31/03/2024	Sow meadow. Re-instate an historic orchard. Create an apiary for, providing nutrition from wildflowers. Create a processing room, which can be used to make use of excess honey, and byproducts such as wax.
RSPB	Aylesbeare	£2,975.00	£5,575.00	01/11/2023	31/03/2024	We are hoping to improve the quality of the species diversity of our 12Ha of grassland that adjoins the SSSI, SPA, SAC & NNR. We are going to take a late hay cut off the areas to improve the sward to a more diverse wildflower mix.
Amherst Lodge Farm	Lyme Regis	£5,835.58	£5,835.58	06/01/2023	22/03/2025	This project will restore and improve various habitats and land features at Amherst, ensuring ongoing biodiversity and resilience. It will lay a foundation for the future ongoing management of the land
PJD Farming Ltd	Combyne	£10,691.93	£10,691.93	01/01/2024	30/03/2025	To enable me to start 'Farm School' at our newly built shed (Newhaye Farm Barn). I need to become compliant to start having children/public on farm which includes a hand wash station, smoke alarms fitted within the shed, a hygienic washable/safe floor in the education area & use of a toilet. I also need to purchase some equipment to allow me to broaden our range of activities.
C J Phillips	Southleigh	£2,095.60	£2,095.60	25/01/2024	20/03/2024	To lay 155m of hedgerow, a mixed species hedge planted approximately 15 years ago.

John Walker	Southleigh	£4,975.36	£4,975.36	25/01/2024	20/03/2024	To lay 368m of mature hedgerow
Loud Partners	Farway	£4,855.50	£4,855.50	25/01/2024	20/03/2024	To lay 145m of mature hedgerow, face up the bank and fence to protect recovering hedge from cattle
Andrew Branson	Shute	£4,967.55	£4,967.55	01/02/2024	20/03/2024	Erection of 365m of fencing and associated gates for two fields to enable the fields to be cut for hay and aftermath grazed in order to improve the biodiversity of the fields and sympathetically manage the hedges for species such as Brown Hairstreak butterfly.
B G Hayman and son	Gittisham	£4,020.00	£4,020.00	15/02/2024	25/03/2024	We have hosted farm visits to our farm but have to hire in porta-loos to make this happen. A Toilet Cabin would mean that visits were less of a financial burden to our business and would show prospective visiting teachers that we are well set up to receive their pupils
J.Burrough & Co	Seaton	£3,806.00	£3,806.00	07/03/2024	10/03/2025	We will produce an interpretation board that focuses on the long history of farming at Beer Head from the early tool making using flints from the cliffs, through the Celtic field boundaries, the Romano British settlement to great grandfather moving to the farm back into the 1930's. We will then bring us up to date with educational activities that look at our transition into flower rich meadows and herbal leys whilst explaining farming to the groups.
Great Trill Farm	Musbury	£37,333.95	£37,333.95	14/05/2024	25/02/2024	Restoring the landscape and benefiting biodiversity through: Restoring 10 ponds across the farm that have silted up and planting and protecting 42 in-field trees across the farm. Restoring an historic Woodman's Cabin that is an important Lesser Horseshoe bat roost.

Heathayne Farm	Colyton	£5,208.20	£5,208.20	01/06/2024	21/02/2025	To plant a mixed species hedge to connect the existing hedge network directly to the riverside trees and scrub. To restore a roadside hedgerow that is in need of laying.
C J Phillips	Farway	£26,068.24	£26,068.24	01/09/2024	31/10/2024	Little Farm supports 14 species of bats in the summer months, there are three summer roosts that are known about, the proposal is to provide a winter roosting opportunity, away from human interference and light pollution. The roost will be specially designed with multiple microclimates to provide a variety of hibernating conditions for both free hanging and crevice seeking bat species.
RSPB	Branscombe	£31,193.25	£31,193.25	06/06/2024	30/11/2024	To produce virtual tours to cover the entire Pebblebed Heaths Special Area of Conservation Area. This is a follow up to a similar project successfully completed at Aylesbeare RSPB Nature Reserve last year, using Access for All funding from the East Devon National Landscape. The intention is to spread the coverage of this highly valued approach to provide continuity and synergy with the existing provision
PJD Farming Ltd	Colyton	£7,611.40	£7,611.40	10/06/2024	01/09/2024	The FiPl funded educational facilities at Newhayes Barn have proved such a success that it has exposed some short comings in current arrangements. When a coach load of children is on-site a single earth closet toilet has proven to be inadequate with large queues forming. Outside seating for large groups have also been required during learning activities such as potting & planting. Coach drivers have also been reluctant to deliver the children to the barn, dropping them off some distance from the facilities, as they are concerned about the rough nature of the farm access track.

J W Voysey & Sons	Colyton	£2,350.00	£2,350.00	24/06/2023	08/07/2024	Our millstream dates back hundreds of years and originally had two full time workers ensuring it's smooth running. It has become completely filled in near the source with silt and growth since it was last cleaned out in July 2017. It feeds a pond as well. Without this restoration work as soon as possible the millstream will flood our land in wet conditions and dry out in the event of a drought.
Ian Archard	Farway	£4,642.75	£4,642.75	28/06/2024	28/02/2025	The first of two applications. This initial application is to enhance the diversity of an area of low input permanent grassland and to plant a separate area with traditional varieties of fruit tree and protect them with tree guards.
Evan Thomas Grant	Farway	£34,810.00	£34,810.00	02/08/2024	01/03/2025	The project aims to enhance farm biodiversity and sustainability while fostering community engagement. Key actions include mapping biodiversity and invasive species, creating research focused polytunnel and nursery. Additionally, the project will develop a multi-use wellbeing and education centre, educational nature trails, flood management systems, a visitor centre, and infrastructure for sustainability-based activities.
Kate Kenlock & Claire Matthews	Farway	£10,110.00	£10,110.00	16/07/2024	30/09/2024	To permit the harvesting of wildflower seed, through the purchase of a seed harvester, from existing Priority Habitat wildflower meadows for spreading in less diverse meadows.
Woodland Trust	Sidmouth	£17,159.50	£17,159.50	01/09/2024	15/03/2025	Management of 16 veteran trees. Creation of deadwood habitats on 25 young trees (supporting creation of future veteran/ancient trees) Public engagement to raise awareness and understanding of the important role veteran and ancient trees play in the wider ecosystem: Ancient and veteran tree walk on site. Short film for social media explaining why the work is taking place. Info boards on the work taking place. Training for arborists on how to work on creating future ancient and veteran trees and veteranisation.

The National Trust	Colyton	£3,211.90	£3,211.90	24/06/2024	31/03/2025	2 ha scrub control, 1.9 ha bracken control
Ian Archard	Farway	£6,115.36	£6,115.36	01/09/2024	30/11/2024	This is the second of two applications. This one is for leaky dams in the stream which is a tributary of the Coly. This will slow down flood water and reduce the speed of erosion of the stream bed, thus creating more variation in stream profile and flow rates providing more diversity of habitat for aquatic fauna and flora.
Matthew Loake	Colyton	£1,652.52	£1,652.52	01/10/2024	28/02/2025	Planting 500m of native, species rich, hedgerow. Planting a small orchard using 12 varieties of local historic importance and additional specimens collected, grafted and grown on by applicant. Planting of native trees and contiguous scrub.
Brian Roger Pike	Colyton	£2,135.89	£2,135.89	02/08/2024	01/03/2025	Enhancement of a wildlife pond, clearance of existing silt traps and installation of leaky dams.
Jessica Fuzzard	Colyton	£8,776.40	£8,776.40	16/09/2024	01/02/2025	To plant 120 cherry trees along the track entrance to Farm. Plant wildflower meadows across 3.5 acres of fields and plant native trees along hedge row in end lake field.
Blackley Down Farm	Colyton	£2,006.16	£2,006.16	01/10/2024	10/03/2025	The plan is to plant native trees and canopy shrubs alongside a wooded goyle. This planting will be into recently purchased improved grassland. This will enhance the wildlife value of the field, enhance the diversity of the woodland and strengthen the feature of a wooded goyle within the landscape.
Farm2Fork	Budleigh Salterton	£20,573.11	£20,573.11	15/11/2024	31/03/2025	This project aims to support public engagement and promote sustainable agricultural practices at Dalditch Farm through a series of educational and infrastructure developments. Key components include new farm signage and an interactive map to inform visitors, essential visitor amenities, an updated website to communicate our story and retail our products, and expanded freezer storage to support our regenerative farming practices. The project will also involve a collaboration with the Met Office to establish

						a carbon baseline and initiate future agroforestry projects to enhance carbon sequestration and improve soil health.
The Farming and Wildlife Advisory Group South West Limited	Various	£25,000.00	£25,000.00	14/10/2024	31/03/2025	Based on learnings from previous Triple Axe rounds, farm nutrient accounting for efficient phosphate management will be provided on a 1:1 basis with 20 dairy farms within the Axe catchment across all three National Landscapes. These farmers will then have a series of bespoke workshops supporting their unique environmental and farm business resilience needs.
Andrew Branson	Axminster	£2,767.94	£2,767.94	01/01/2025	28/02/2025	There is historic evidence that this meadow adjacent to Grove Cottage was an orchard. The proposal is to plant a traditional apple variety associated with Shute, the Crimson Victoria along with some other fruit species such as plums.
River Lim Action Group	Lyme Regis	£1,770.16	£1,770.16	06/01/2025	31/03/2025	The River Lim Catchment and particularly the river is failing its ecological good status. Much of the landscape is degraded in terms of management with both intensive areas of arable and grazing together with much neglected woodland and forestry. The river is impacted by a combination of factors including soil and agricultural run-off, urban impacts, historical modification to river channel and structures and undermanaged small landholdings due to access and multiple land ownerships. This application will enable the first phase of this proposal and build foundations for the future.
Lower Watercombe Farm	Axminster	£2,222.12	£2,222.12	14/01/2025	14/03/2025	To clear existing traditional fruit trees that are engulfed by bramble and holly, carry out restorative pruning to a number of trees in each orchard. Plant new trees in gaps and protect from browsing.
Clem Kelsey	Axminster	£1,460.00	£1,460.00	14/01/2025	14/03/2025	Carry out restorative pruning to a number of trees in the orchard

National Trust	Weston	£1,851.75	£1,851.75	11/02/2025	14/03/2025	Creating a new, safe access route through the Coxe's Cliff whilst protecting the conservation value of a species rich meadow.
RSPB	Sidbury	£3,500.00	£3,500.00	03/03/2025	17/03/2025	Conservation grazing has been introduced to the southern end of East Hill on Fire Beacon Hill and adjoining Woodland Trust and Forestry Enterprise woodland. It is also proposed to extend this vital conservation work further north along the ridge onto other landowners Colysites. Light grazing is an important tool for preventing invasive plants such as silver birch and conifer establishing on heathland and they also trample emerging bracken shoots.
